

# Wall Builder

I can find equivalent fractions.

Help Sam to build the walls by finding as many equivalent fractions as you can. On each wall, colour in a pair of equivalent fractions. How do you know that they are equivalent?

How many pairs of equivalent fractions can you find?

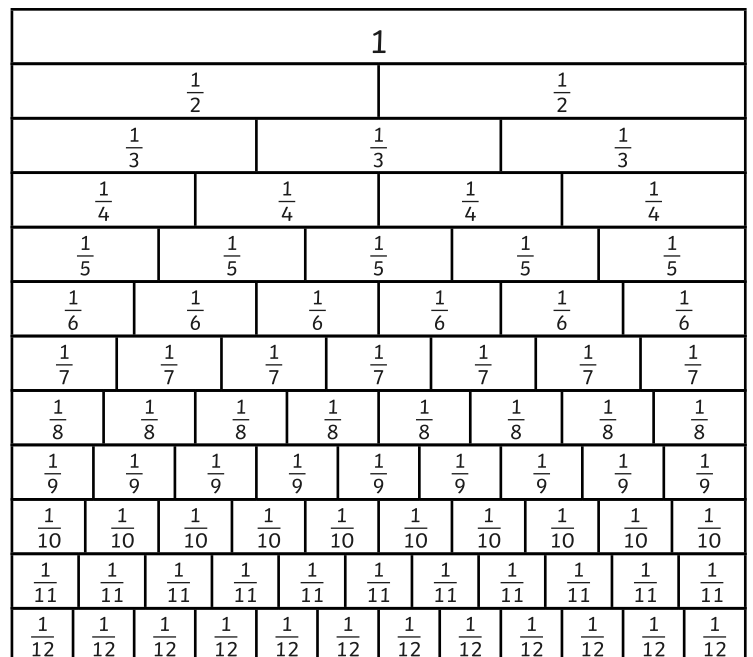

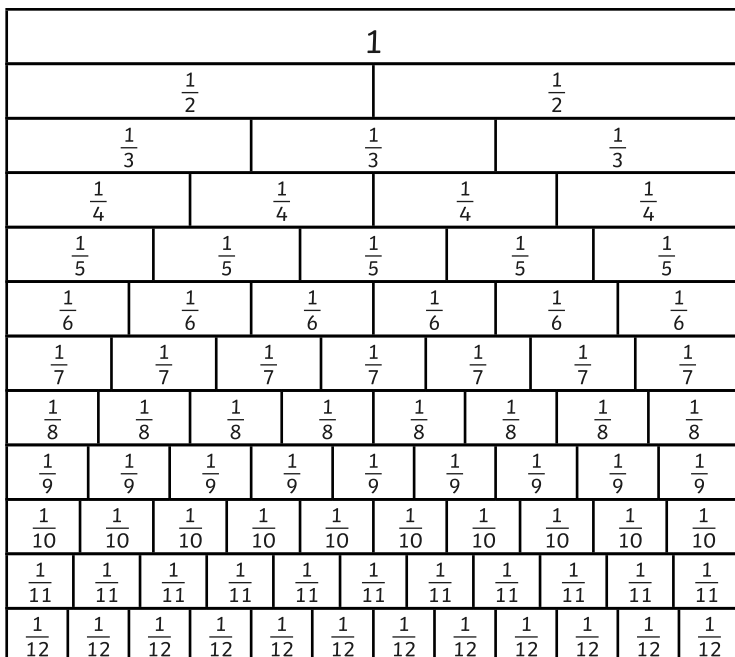

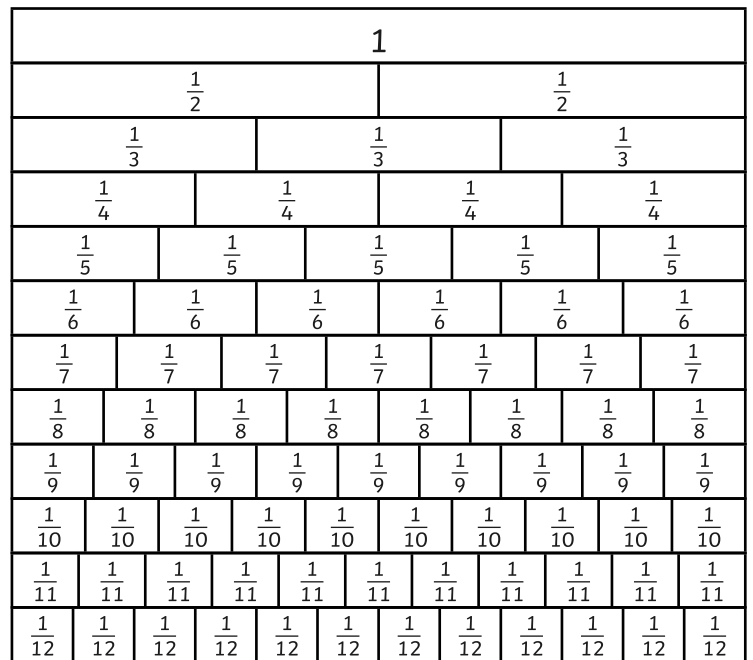

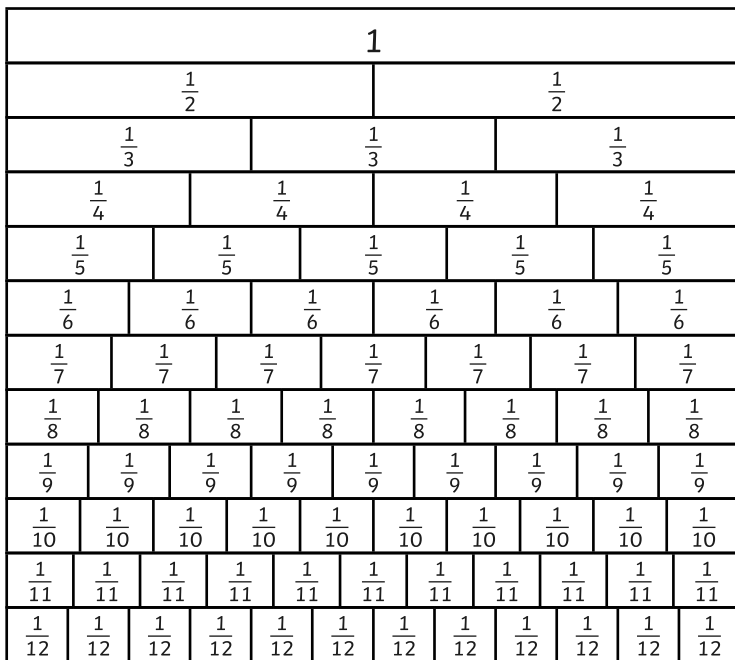

# Wall Builder

I can find equivalent fractions.

Help Sam to build the walls by colouring in as many fraction blocks as you can. Roll your die to find your fraction. The number you roll is the denominator. You can colour in that fraction or any fraction that is equivalent to it.

How much of Sam's wall will you build?

# Wall Builder

I can find equivalent fractions.

Help Sam to build the walls by colouring in as many fraction blocks as you can. Roll your dice to find your fraction. One dice shows you the numerator and the other shows you the denominator. You can colour in that fraction or any fraction that is equivalent to it.

How much of Sam's wall will you build?
