

ART WEEK – Nature Around Us

Usually in school, the week before half term is ART Week. We did not want to miss it this year so thought we would send you all an Art Challenge for this week, rather than the usual Maths and English activities. You can still practice your times tables and number skills using Numbots and TT Rockstars and keep up your reading practice.

There are 3 art challenges to have a go at. You can try one or all of the activities it is up to you, but we would like you to bring one piece you are proud of when you go back to school. If you have brothers and sisters at home, feel free to complete a project together.

Challenge 1 – Leaf Animals

On your daily exercise, or from your garden collect as many leaves and natural materials as you can. Can you use these to create an animal of your choice? You could get inspiration from one of these or you could try recreating the ones on this sheet.

Challenge 2 - Through The key Hole

Use the template attached to the sheet. Imagine a place you would like to be right now and draw the scene as if looking through the keyhole to it.

Challenge 3 – Nature Alphabet

Can you create the alphabet using nature materials. Once completed can you use your alphabet to create your name.

Challenge 4 - Natural Ornaments

As you know, last year the leavers created a willow tree. Try to create a natural hanging ornament which we can hang on the tree when you return to school. You may decide to include a message on your design.

For more ideas just *Google* each challenge or go to *Pinterest*. If you have another idea that fits the theme – go for it!
