

# **YEAR 6 SCHOOL JOURNEY**

## **Day 1**

**Monday 26<sup>th</sup> June 2017, and year 6 were up bright and early, to get on the coach to Devon. 28 excited kids stepped on, a 6 hour journey ahead of them. When we arrived, they were assigned rooms, to sleep and hang out with each other, during free time.**

**The first activity we did was canoe drill in the swimming pool, to learn canoeing for a following day. In the evening we did low ropes together. That night everyone had a good night sleep, as they were so tired from the action packed activities.**

## Day 2

**As soon as we woke up, everyone was ready for the first activity, tunnelling and crate stacking. For tunnelling we did a few tunnels over ground but most under, which was really cool, but very dark! Crate**

**stacking, we were put into 3's and were hoisted up by a harness. People stacked crates below us and we stood on them high in the air.**

**At lunchtime our activity was real canoeing in a lake! It was so fun, as we all got to jump in at the end.**

**The last activity we did on Tuesday was ringo riding which was the best activity by far! We went so fast, I felt like I was going to fly off.**

### **Day 3**

**The first activity of the morning was Crabbing and a boat ride. I managed to catch 4 crabs.**

**Also we went on a really fast speed boat ride, it felt like the boat was flying on water!**

**At lunch we did a coastal walk which was very wet, but still super fun as we got to explore the rocks and pools of water. We managed to find 2 crabs, a jellyfish and a shrimp. It was so cool.**

**That evening our class did another activity altogether. Pedal carting! We all got into groups and pedalled around a track. We**

**got points, if we didn't follow rules, so the team with the least points won.**

## **Day 4**

**Tree and traverse was our first activity of the morning. We got hoisted up a tree and then had to abseil down, it was really enjoyable.**

**The activity after lunch, was even better. Body boarding and surfing! I managed to stand up on my surfboard, but not for very long.**

**The activity for the night, was a disco, which was epic. Our whole class was dancing together and jumping about. We all enjoyed it so much.**

## Day 5

**This was our last day, so we only had time for one activity, but it was such a good activity. We did rock climbing, and I got to the top of every wall. On the middle wall, we had to climb up really, stand on a flat platform and then abseil back down. Not only did I do that, but I did it really fast.**

**Knapp house was the best school trip I ever went on. I definitely recommend it for other people. I had so much fun, and loved every single moment of it.**
