

Knapp House

On Monday the 26th of June 2017 year six travelled to Knapp House. We had to be up bright and early to get there in time for our first activity. When we arrived we were given a tour of the sight and were told our rooms. We then split of into our day groups and started our first activity at 2:30. My first activity was the costal walk at Westward Ho! beach. Where we explored some rock pools, built some sandcastles and even found some crabs. We then had our dinner. After that we did our evening activity which for my group was the Ringo Ride, which was epic but we did come back all soggy and wet. We then a had a good night sleep ready for Tuesday.

On Tuesday we started our day with the canoe drill which took place in a boiling hot swimming pool where we learnt how

the different paddle strokes, what to do if you capsized and we even got to do some competitions. We then had our lunch and got ready for our next activity. Which was canoeing in the lake. Next we had low ropes unfortunately it rained and so made it very difficult to do the obstacles.

On Wednesday our day started with crabbing and the speedboat. Speed boat which I would describe as “EPIC”. We caught loads of cool crabs but also some very vicious crabs.

After returning from crabbing we had lunch and then started our afternoon activity which in my case was the abesil

Climb wall. Although it was raining it was still one of the best activities as I got to the top of all the walls.

On Wednesday night we did pedal Carts which was actually quite hard.

The next day was Thursday which was an EPIC day. We started with tunnelling and crate stacking. Crate stacking was really fun but actually very tricky.

Tunnelling was just awesome but you do get very muddy and some places the tunnels are pitch black and tiny . next we had surfing and body boarding down and Westward HO! Beach. At first we where all freezing cold and the wet suits that we had to wear where soggy and cold. I was really happy as I managed to body board properly and even stood up on my surfboard. We then had a few hours to eat dinner and get ready for the disco on Thursday night . which was one of the best discos I have ever been to.

After a long week full of fun and joy it was Friday and time for us to leave however we did do one more activity

which for me was tree and traverse I went first on the tree part of the activity and it was epic it was so fun when abseiling down. We then did the traverse across a small lake(stream). Finally our experience at Knapp house came to an end after the epic, awesome and fun week. BY KATIE
