

# Knapp House 2017

**On Monday 26<sup>th</sup> June 2017 year 6 went on a journey all the way down to Devon to spend an extraordinary week in Knapp house that everyone will remember.**

**We started at school very early in the morning, saying our farewells to family and friends until we got on the long coach journey down to Devon.**

**After the 7 hour journey we finally got to Knapp house we found where we were staying with I spent the week with Elvina, Sophia, Phoebe, Lauren and Katie though we were in one room it didn't have a door so the other group and us were basically together and we also had a spare room which we all called the changing room.**

**As soon as we finished unpacking we had our first activity where one group went on a costal walk down at West Wood Ho! (That was my group) whilst the others did a canoe drill. When we finished our first activity we came back to have dinner before we went off to do another activity (this was my favourite activity that we did) Ringo Rides I did it with Sophia and luckily we both**

**stayed on. After Ringo's we had no ore activities so we had a bit of free time and went to bed.**

**The next morning we had breakfast at 8:45 and had our first activity at 9:00 am we had the canoe drill where we got very wet, we learned many different paddle strokes with our wonderful instructors Gazette and Dom. We got to play games as well as learn something new which was really fun.**

**Then once we dried off we had lunch and a bit of free time, until we had another activity where the whole class did a bit of canoeing and met some cows after we**

**had lunch and had our third activity low ropes where I may or may not have face planted (in my defence it was very slippy) the instructor was really nice and helped me back up it was funny because at the start we all chose names and I was TR trouble.**

**Wednesday morning was more a less the same thing except the activity's. We had crabbing and a boat ride before we had lunch and then did climbing. The boat**

**was extremely fun and everyone enjoyed it and we all had a go at crabbing I caught a few and a few let's just say caught me (they nipped me). Climbing was good as well but not my favourite activity as I fell and wacked**

**my head a few times apart from that Wednesday was a really good day.**

**Thursday was a messy day as we did tunnelling and crate stacking. When we did crate stacking us did it in three fours and a two I was one of the fours and my group got to 11 crates before it all fell down. Tunnelling was muddy**

**and wet but very enjoyable as everyone took part. After those two activities we did surfing and body boarding which was amazing as some people actually stood up then at 8:00 pm we had an amazing disco where everyone danced and had a lot of fun.**

**When Friday came everyone was sad because we had to leave but before we did we had the last two activities tree hoist and traversed where we walked over a lake and got pulled up and abseiled down a tree witched everyone had a go at . After we said goodbye to Knapp house and headed on the long journey home.**
