Maths at Ladbrooke

Classroom secrets and other resources can be used to apply skills

White Rose problems and reasoning are used to apply skills

> Target your maths and CPG books are used to develop fluency

Address errors in the next lesson. Small group support where necessary Fast feedback is used to mark work in lessons, move children on and address any misconceptions

Children have opportunities to practise skills thoroughly before applying in reasoning and problem solving

Doodle Maths and TT Rockstars used to support maths HW White Rose Maths is our main school scheme. We follow the unit blocks

Maths at Ladbrooke

> Units are depicted with unit covers showing key vocab and/or strategies

identify key misconception to address in the next lesson

Marking should

Planning is based on the small steps of progression within each block

End of term
assessments are
used to establish
gaps and plan
work to close gaps
and address
misconceptions

Talk maths sessions used to apply skills and talk through problem solving 6 a day gives opportunities to practise skills daily

Pre and post lests are available if necessary

> Short dates and titles should be used in each lesson Working walls linked
