Dear Parent/Carers,

Thank you for your support with enabling your child/children to use Doodle Learning at home.

We hope that the children have been just as excited about Doodle at home as they have been in school and have shown you what the programme does. When checking each week, I have been pleased to see that lots of children are regularly 'Doodling' at home. Doodle builds confidence and ability in maths by creating a personalised work programme to support the learning ability of your child.

Teachers will be setting their **weekly homework** on Doodle Maths – this may be in the form of a set assignment or a Daily Doodle. A Daily Doodle is up to 10 questions, depending on age and ability, created by the computer specifically for your child.

It is important that your child is able to access Doodle learning either on the DoodleMaths app or through the website - doodlelearning.com. This can be done on a range of devices, including computers, laptops, Ipads, tablets and phones.

Parents can also link their email addresses to their child's account, so that they can see how well their child is doing and the mathematical concepts they might need to work to further improve and progress.

For more information, feel free to speak to Mrs Romain at school or email htiller@ladbrooke.herts.sch.uk.

Thank you for your continued support.

Yours sincerely,

Mrs Helen Romain
