

Go on a 'sound' scavenger hunt

Supertato begins with 's'. Can you find ten things in your home beginning with 's'? Draw pictures of the things you find.

Create your own Supertato comic strip
You can learn how Supertato's creator, Sue Hendra, draws our hero in this [short video](#). Then you can make your own comic strip. Either download [this template](#), or simply draw a sequence of pictures in your work book.

Vegetable printing

Carefully cut some small potatoes in half (it's best if adults do this). Blot the potato halves with paper towels and apply a thin coat of paint to the flat side before pressing onto paper or fabric.

What shape do they make? Can you use different colours and make a repeating pattern? Try using other vegetables and see what shapes they make.

Set up your own supermarket

Make a price list and labels - no vegetables can cost more than 10p

Ask your family to be customers and give you the money in 1p pieces. Can you tell them if they have paid the right amount?

Evil Pea ice investigation

The only way to stop the Evil Pea is to keep him in the freezer. Can you make some Evil Pea ice cubes? What will you need? When they are frozen, how long do they take to melt? Try placing the ice cubes in different areas outside (in the sun, in the shade, on the paving, on metal etc.). Which ones melt first? Which take the longest to melt?

Grow a carrot plant

Save some carrot tops when preparing snacks. Place several layers of paper towel on a plate and soak it well. Put the carrot tops on the paper and leave on a window sill. Check daily and keep the paper wet. Once the new plants have rooted well, you can plant them in soil. (They will not grow into carrots, but the plants are pretty).

Make a veggie superhero

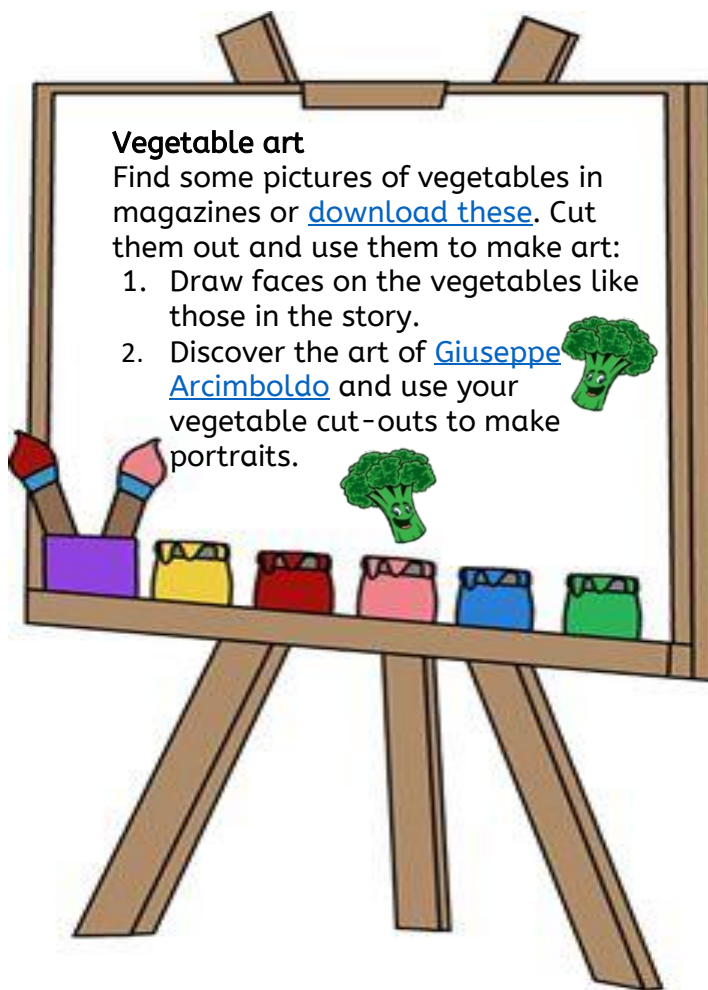

Use paper, googly eyes, electrical tape or felt-tip pens to make superhero accessories like masks and capes (or cut them out from [this sheet](#)) and stick them on a potato to make your own Supertato.

Alternatively, use a different vegetable and make up a new superhero. What are their superpowers? How would they use them in the supermarket?

Vegetable art

Find some pictures of vegetables in magazines or [download these](#). Cut them out and use them to make art:

1. Draw faces on the vegetables like those in the story.
2. Discover the art of [Giuseppe Arcimboldo](#) and use your vegetable cut-outs to make portraits.

Run a vegetable race

Make a racetrack suitable for vegetables you have in your house. This could be a big one outside or a mini race for peas on the table.

Take turns to roll each of your veggies or roll together with a grown up. Which size and shape roll the best?

Vegetable comparison

Compare size and weight of vegetables. What is the longest vegetable you have in your house? What is the lightest? What is the heaviest?
