

# Skeleton Functions Answers

## Task 1 - Protection

Label and colour in **red** the bones that protect organs in your body.

## Task 2 - Support

Label and colour in **blue** the bones that keep your body upright.

## Task 3 - Joints

Create a key below and then circle (o) the joints in the body.

Children can use any colours in the key.

type of joint	picture	colour
gliding joint		purple
hinge joint		green
ball and socket joint		orange
