### **Eren's book review - 'Wonder'**

**Wonder is about a boy named Auggie Pullman who has this face problem/disease.**

**In the beginning, the book says that he is ordinary, inside but isn't ordinary outside. Other kids with no problems like him would always give him a glare whilst he was walking or would whisper to their friends.**

**The book has 310 pages and has lots of characters like:**

**Auggie (the main character), Nate (the dad), Isabel (the mum), Via (the sister), Jack and Summer (his friends).**

**This book was written by R.J Palacio**

**I highly recommended the book to children of all ages and I'm sure that they will enjoy just like I did. You can also watch this as a movie but the book is more interesting in my opinion.**
